13070 W. Bluemound Rd #201
Elm Grove, WI 53122
414-379-4081

Defendant:

United States
% Thegay J. Handstad, Esq.
U.S. Attorney for the Eastern District of Wisconsin
517 E. Wisconsin Ave. #530
Milwaukee, WI 53202
414-297-1700

(Federal program/school unknown to Plaintiff)

U.S. DISTRICT COURT
EASTERN DISTRICT-WI
FILED
2018 FEB 22 A 10:14
STEPHEN C. JONES
CLERK

FACTS

1. Plaintiff is a non-consensual participant in a discriminatory and unconstitutional Federal program/school which deprives Plaintiff of all Civil Liberties enjoyed by her fellow citizens, including but not limited to her 1st, 3rd, 4th, 9th and 14th amendment rights. Uncompensated, since 2009, it likewise relegates her to servitude.

2. Prior to this U.S. Code or Executive Order, the Federal program/school began as the result of a crime through the course of her employment at von Briesem + Roper, S.C., Milwaukee, WI.

3. Christy A. Brooks, Esq. of von Briesem + Roper, S.C. has recently admitted to Joyce Karbiaciak of ABC Channel 12 news, Milwaukee, that the program/school is a fraud; there is no (law) school, no purpose, no point, no accreditations, training etc. The plaintiff was already highly educated (Georgetown University and graduate school) and accomplished (INTERPOL - U.S. Department of Justice, American Bar Association, Washington D.C. and the White House Christmas card list).

4. There is a continued and imminent threat to the life, health and well-being of the Plaintiff both physically and emotionally.

5. Plaintiff is a 46 year old woman in deteriorating health, suffering with two stress-related heart conditions, a history of cervical cancer presently untreated for five years and an untreated life-threatening bacterial sept condition.

6. Administrators and staff of this Federal program/school continue to make decisions which pose serious and life-threatening risks to the Plaintiff. The program/school further engages in terrorizing and torturous tactics, creating an emotionally abusive and physically stressful environment.

7. Plaintiff has lacked any and all privacy over the last decade as the media and others are required to watch on in her home, car etc., including in her bedroom, shower, toilette, creating a degrading and highly stressful environment detrimental to her health and heart conditions.

8. Plaintiff is not only deprived of any and all resources by this program/school, she is further deprived of antibacterial products, essentials and healthcare necessary to protect her life.

9. It has been confirmed by the press that the Defendant has been using classified technologies to terrorize and torture the Plaintiff over the last six years; deteriorating the Plaintiff's physical health completely. The technology currently placed in the Plaintiff's left ear is utilized to torture and abuse the Plaintiff 24/7; 365 days of the year for the last three years. The use of this technology has taken a serious toll on her heart and health both physically and emotionally, as the Plaintiff has suffered massive cardiac events over this period of time, including a confirmed heart attack by the Defendant's consulting physician.

Likewise, ladden with bacteria accumulated over the last six years, the continued use of this technology poses a life-threatening risk to Plaintiff's untreated bacterial cyst condition which randomly causes cerebral hemorrhaging,

internal bleeding, infection, seizures, vertigo, excruciating pain and brain tumor like formations. Plaintiff cannot obtain an antibiotic to eradicate the bacterial infection until this technology is first removed.

10. Plaintiff contends the Defendant engages in self-appropriation which allows the Defendant to unconstitutionally facilitate this Federal program/school by funneling its costs through other agencies such as the Social Security Administration and Department of Defense; budgets deemed by Congress to meet their expenses, not those of this program/school.

11. Plaintiff is deprived by this program/school of any and all resources to accurately facilitate, research and/or produce documents relative to her 1st Amendment right to redress grievances. Plaintiff is further prevented from obtaining legal counsel to represent her interests.

12. Plaintiff has been poverty stricken by the Defendant for nearly a decade; deprived of all civil liberties, privacy and her ability to live her life freely.

RELIEF

Therefore, the Plaintiff respectfully requests that this Court grant her Request for an Emergency Permanent Injunction, immediately restoring all civil liberties and stripping this program of all power, authority, resources and technologies. Defendant is to make arrangements respectful of the Plaintiff's expressed wishes to have the technology safely removed from her head and verified by confirming physicians.

Plaintiff further requests future revised pleadings reflecting her name change and Restraining Order on behalf of both her and her (future) husband, John Sanford. The U.S. Attorney's office to work with Plaintiff to prepare said Orders and provide a comprehensive list of all applicable individuals and addresses of those associated with this program for this Court's review and signature.

Respectfully requested this 20th day of February, 2018.

Elizabeth M. Marcus, pro se
